How does your business or professional activity relate to sustainability?

GS&P is a Full service Architecture, Interior Design, and Engineering firm focusing on Healthcare and Transportation. As a LEED AP BD+C who has completed my first round of CMP I assist the local office as well as the 16 other offices in their LEED and Sustainable pursuits as well as tracking and writing internal articles. As the immediate past president of the Tampa Bay Chapter of the Construction Specification Institute I ensured that all our programs had a sustainable component and AIA SU credit associated with each presentation (Am currently one of four Directors). As one of the founding members of the Florida Gulf Coast Chapter I have been involved with the USGBC since 2002 through today and the foreseeable future. I have been on the

Education Committee and continue to give presentation of CMP, LEED GA and LEED BD+C Study Coerces as well as Regional Innovation Credit opportunities and LEED for Healthcare programs. I am also the vice president of my local Homeowners association where I have the opportunity to introduce sustainable strategies into our guidelines and offer educational assistance for the homeowners who wish to be greener.

Please write a brief description below of how you feel your expertise can be an asset to the board and how you can contribute to the mission of the Florida Gulf Coast Chapter:

My one-year semi-hiatus from the USGBC have allowed me to create stronger bonds with both the local AIA and CSI chapters and have helped me realize about much the three organizations can accomplish if we were to work together in the future. My past experiences with the local USGBC chapter as well as knowing how the chapter operates as a whole can bring insight to the Branch level as well as enhance communications between the Branch and Chapter. My past work with Communications can be used by the Branch to help with membership and education as well as past experience with finances can be used to create realistic budgets.
